LETTER OF RECOMMENDATION

I take this opportunity to recommend my student, Mr. Sandeep, for admission in your university. I know him from 2002, starting from his first year in college and have taught him the course "Power electronics and Power systems". Also, he did his project "Single touch multi control switch", under my guidance. He had earned commendable grade points in the course and for the project work.

During the course of my lecture and discussion in the class, I have found him to be very interactive and his zeal for learning beyond the of the prescribed syllabus is commendable. He is an intelligent individual, who strives to achieve goals that he sets his mind to. He combines his intellectual skills with hard work and bring success in his academics as well as other endeavors. In addition to this, Mr. Sandeep has always demonstrated a high energy level combined with the willingness to accept responsibility. He took extra efforts to learn the software's in a short duration.

On a personnel level Sandeep is a well disciplined and sincere student with a very amicable personality. He communicates very effectively in English and puts across his thoughts in a lucid and convincing manner.

I can confidently state that he possesses the required preparation, motivation, commitment and intellectual ability to meet the demands of your programme. I strongly recommend him admission to your institute with financial assistance.

I wish him all the success in his academic pursuits and career. In case you require any more information regarding this candidate please feel free to contact me.
